

Cindy White Zwick, C.S.

Cindy ended a successful dual career as a real estate brokerage owner and a trainer for independent business owners when she entered the full-time practice of Christian Science healing in 2011. Although raised in Christian Science, she spent over 20 years away from it. But one Sunday morning in 2001, in poor health and desperate for physical healing and spiritual regeneration, she walked back into a Christian Science church. She found healing for all her illnesses and a firm spiritual underpinning for the rest of her life.
